

## NORTHERN KENYA RANGELANDS CARBON PROJECT

Improving Pasture, Sustaining Livelihoods and Conserving Natural Resources

2022 CARBON  
**PROJECTS**  
**FUNDING**

---

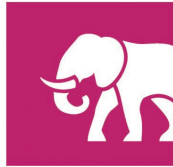

# What is NKRCP?

The Northern Kenya Rangelands Carbon Project is the world's largest soil carbon project which will remove greenhouse gases from the atmosphere by implementing sustainable grazing management over 1.9 million hectares of northern Kenya savannas and grasslands.

The Project:

**Improves** pasture for livestock

**Improves** the landscape for wildlife

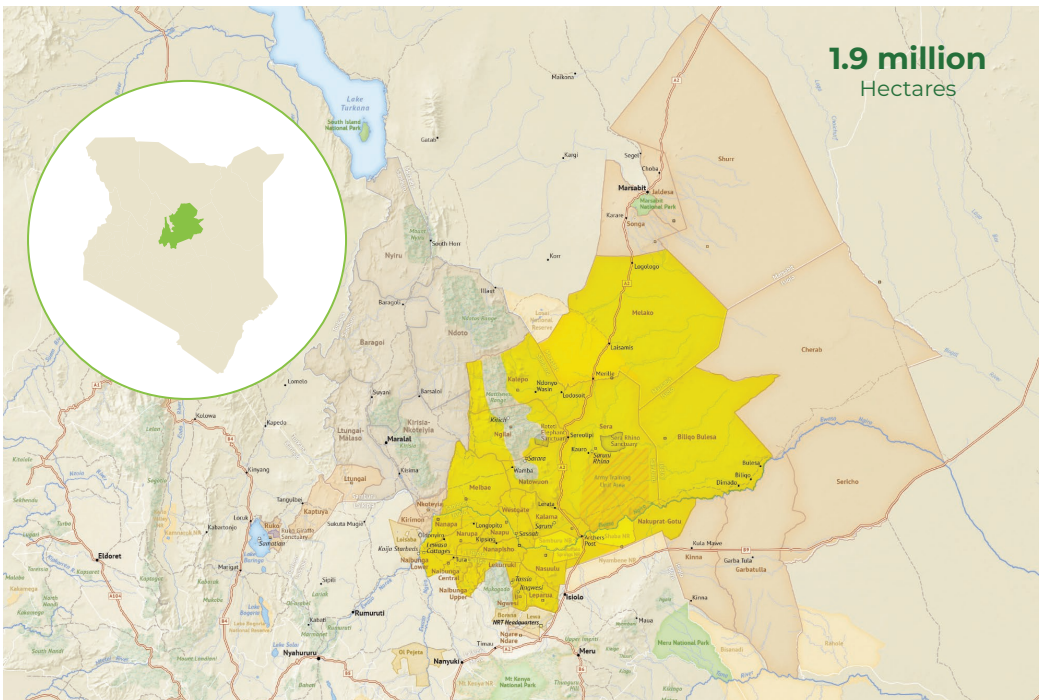

**Improves** rangelands and makes them more drought resilient

**Generates** a new revenue stream for community members

## World's Largest Soil Carbon Project

# Carbon Community Fund (CCF) Projects Summary

The Northern Kenya Rangelands Carbon Project (NKRCP) is the world's largest soil carbon removal project. The Project operates across 1.9 million hectares (4.7 million acres) of northern Kenya and involves 14 NRT member community conservancies: Biliqo Bulesa, Il Ngwesi, Kalama, Leparua, Lekurruki, Meibae, Melako, Naibunga, Nakuprat-Gotu, Namunyak, Nasuluu, Ol Donyiro, Sera, and Westgate.

Work on the NKRCP officially started in 2012. In the Project, cattle herders work to rehabilitate overgrazed grasslands by combining traditional grazing practices with rotational grazing, which improves soil health (and pasture quality) and allows perennial grasses to regrow. As grass cover increases, more atmospheric carbon is removed from the air and deposited in the soil, improving rangelands across the project area.

In restoring the savannah grasslands in an arid region, the NKRCP is anticipated to remove 50 million tonnes of carbon dioxide over 30 years - the equivalent of the annual emissions from over 10,000,000 cars.

Production of credits will fluctuate annually due to changing climate conditions and how well the rotational grazing plans are followed. NRT is committed to continuing to support the participating conservancies to promote regenerative grazing practices.

Developing a carbon project is a long, often expensive process requiring specific technical expertise and appropriate processes to credibly verify the project and ensure its long-term success. NRT collaborated with the participating conservancies, Soils for the Future and Native, as well as other donor supporters over the past 10 years to develop the NKRCP.

To date, the first issue of credits from the project (c.3.2 million credits) have been validated, verified, and sold on the international voluntary carbon market. 2022 marked an important milestone for the NKRCP when the first revenue it generated was disbursed to conservancies. This report details how these funds were spent by communities within their conservancies:

*Nasuluu tourism banda in Nasuluu Community Conservancy, Isiolo County, CCF 2022*

*Samburu Community School dormitory in Nasuluu Community Conservancy, Isiolo County, CCF 2022*

*Kiltamany new classroom in Westgate Community Conservancy, Samburu County, CCF 2022*

## Summary: Total Net Revenue of First Issue (2013 - 2016):

Total Net Revenue:	USD	*KES
Total Net Revenue:	14.6m	1.6bn
Per year (3 years: 2022, 2023, 2024)	4.9m	548.8m
Per conservancy (14 ccys; per year)**	324,000	36.3m

\*Exchange rate as calculated at time of revenue announcement in February 2022 USD to KES was 112.00.

\*\*Represents 14 portions of the 15 equal portions (where 1 portion is withheld in an established financial buffer agreed to by all conservancies for low income or low crediting years).

Total Net Revenue:	USD 14.6m	KES 1.6bn
5% County Government Levy	681,333	76.3m
40% Conservancy Operations	5.2m	582.4m
60% Carbon Community Fund	7.8m	873.6m
Conservancy Owned Financial Reserve	973,333	109m

Total Net Revenue Per Year:	Full Amount KES 1.6bn	2022 KES 548.8m	2023 KES 548.8m	2024 KES 548.8m
5% County Government Levy	76.3m	25.4m	25.4m	25.4m
40% Conservancy Operations	582.4m	194.1m	194.1m	194.1m
60% Carbon Community Fund	873.6m	291.2m	291.2m	291.2m
Conservancy Owned Financial Reserve	109m	36.3m	36.3m	36.3m

## Summary: Conservancy Revenue Disbursement (2022):

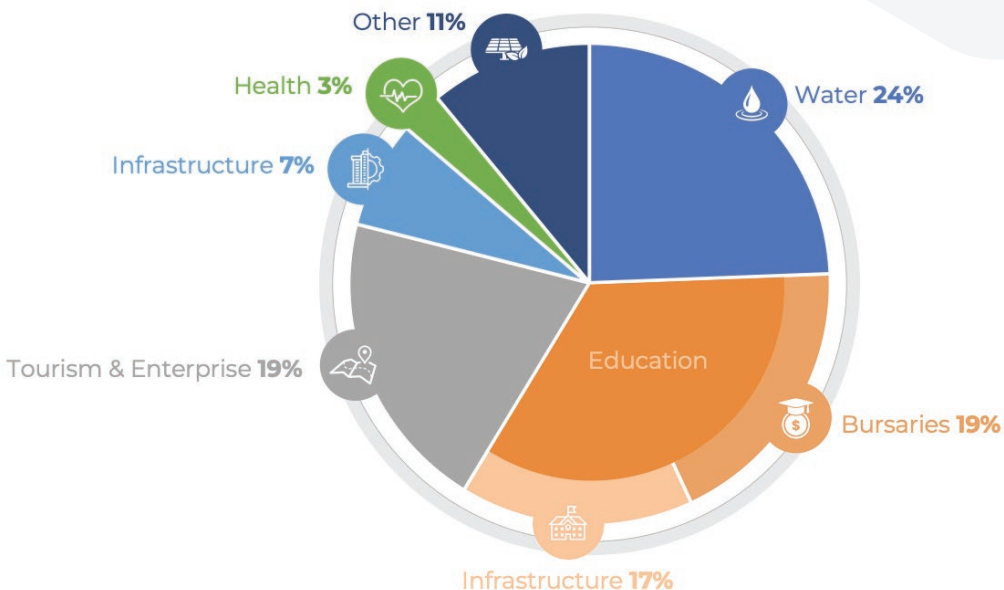

No:	Conservancy:	Total Amount (2022) (KES):	5% County Gov Levy (KES):	40% CCY Operations (KES):	60% Carbon Community Fund (KES):
1	Biliqo Bulesa	36.3m	1.8m	13.8m	20.7m
2	Il Ngwesi	36.3m	1.8m	13.8m	20.7m
3	Kalama	36.3m	1.8m	13.8m	20.7m
4	Lekurruki	36.3m	1.8m	13.8m	20.7m
5	Leparua	36.3m	1.8m	13.8m	20.7m
6	Meibae	36.3m	1.8m	13.8m	20.7m
7	Melako	36.3m	1.8m	13.8m	20.7m
8	Nakuprat-Gotu	36.3m	1.8m	13.8m	20.7m
9	Nasuulu	36.3m	1.8m	13.8m	20.7m
10	Sera	36.3m	1.8m	13.8m	20.7m
11	Westgate	36.3m	1.8m	13.8m	20.7m

**NB:** Naibunga, Namunyak, and Oldonyiro split into sub-units and have been operating in those sub-units since 2017. Therefore, the income from the 2013-2016 issue is split equally between the sub-units within these larger conservancies, as agreed by the participating conservancies in the Project Implementation Agreement (PIA) 2021, which all conservancies, and sub-units were signatories to.

12	Naibunga	Lower	12.1m	606,095	4.6m	6.9m
		Central	12.1m	606,095	4.6m	6.9m
		Upper	12.1m	606,095	4.6m	6.9m
13	Namunyak	Kalepo	12.1m	606,095	4.6m	6.9m
		Ngilai	12.1m	606,095	4.6m	6.9m
		Naluwuon	12.1m	606,095	4.6m	6.9m
14	Oldonyiro	Nannapa	9.1m	454,571	3.5m	5.2m
		Narupa	9.1m	454,571	3.5m	5.2m
		Naapu	9.1m	454,571	3.5m	5.2m
		Nanapisho	9.1m	454,571	3.5m	5.2m

# Overall Summary 2022 Carbon Community Funds Disbursement

## REVENUE SHARE

In the **first three years** of the project, the conservancies are expected to receive approximately **60%** of the total sales revenue, depending on the sales price achieved and over the **project life (30 years)** this is expected to increase to at least **69%**

**1/15**

of revenue to be withheld in an established financial buffer agreed to by all 14 conservancies for low income years

**5%**

Further agreed to as contribution to County Government development mechanisms that support rangeland activity associated with the carbon project

### CARBON COMMUNITY FUND

For the first three years of the project, this 60% is accessed through the Carbon Community Fund. This fund asks conservancies to formally apply for the use of these funds based on collective agreement from the communities with the conservancies. The disbursement of funds will be administered through the Special Purpose Company but overseen by the Carbon Oversight Committee. These funds could support any community initiative, from bursaries to businesses

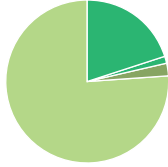

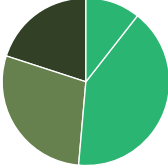

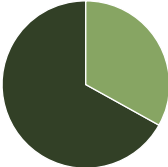

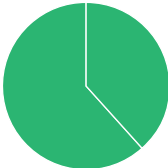

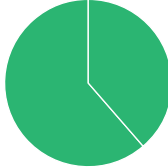

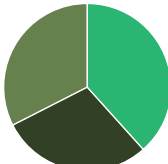

### CONSERVANCY OPERATIONS

**20%** Carbon Project and Rangeland Activities

**20%** Peace, Governance, Wildlife and Environment Operations

# CCF Project Detail by Conservancy

All conservancy project spending is subject to annual audit. These are currently ongoing for 2022.

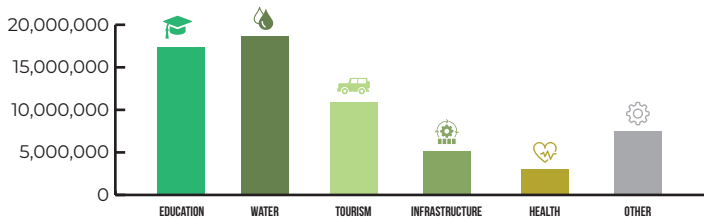

## 2022 Projects in Isiolo County

Conservancy	Project	Purpose	Cost
 SAMBURU COMMUNITY WILDLIFE CONSERVANCY Wildlife Our Heritage	Cleared the Langailer-Ngarentare connecting road	To ease transportation in Nasuulu	Ksh 545,000
	Furnished Samburu Community School's dormitory with beds and mattresses	To enhance access to education	Ksh 305,000
	Disbursed bursaries to 630 primary, secondary and university students	To enhance access to education	Ksh 4,150,000
	Ongoing construction of tourism bandas	To promote community livelihood diversification	Ksh 15,700,000
 Biliqo - Bulesa Community Conservancy	Constructed an administration block at Goda Primary School	To enhance access to education	Ksh 4,000,000
	Constructed a classroom at Awarsitu Primary school		
	Distributed bursaries to 550 secondary school, college and university students	To promote education	Ksh 3,550,000
	Rehabilitated the borehole at Dhima Adho and renovated the water pipes at the Qonohongura waterpoint,	Biliqo Marara, Dima Adho, Biliqo, and Bulesa communities are rehabilitating and extending existing systems to improve water access for domestic use	Ksh 7,900,000
	Equipped the borehole at Bulesa with new water pipes		
	Purchased a generator to facilitate the pumping of water from Ewaso River to the Biliqo community		
	Renovated Biliqo Marara's borehole's piping system and equipped it with water tanks		
	Purchased a community vehicle	To ease transportation	Ksh 5,250,000
 Naapu Community Conservancy	Distributed bursaries to 264 secondary school, college and university students	To ensure that school going children stay in school	Ksh 2,000,000
	Fenced the compound of Lenkuruma Primary School	To ensure safety for children while in school	Ksh 3,180,400
	Fenced Mokori ECDE Center		

Conservancy	Project	Purpose	Cost
	Provided goats to 10 families selected from all the Conservancy's zones	To enable community members to restock their herds after losing their livestock—their main source of livelihood, to the drought.	Ksh 3,000,000
	Constructed roads, improving safety in the Conservancy	To ease transportation within the conservancy	Ksh 1,000,000
	Cleared invasive cactus	Rangelands rehabilitation	
	Security outposts construction	To enhance safety	Ksh 400,000
 Narupa Community Conservancy	Cleared the invasive species <i>Acacia reficiens</i> and planted grass	Rangelands restoration	Ksh 1,680,000
	Distributed bursaries to 595 students	To promote education	Ksh 2,000,000
	The equipping of Tura borehole in Tiamamut community land and the construction of a concrete tank is ongoing	To ensure continued access to clean water for the community	Ksh 1,500,000
	Disbursed bursaries to 312 secondary and tertiary level students	To promote education	Ksh 2,000,000
	Constructed teachers' quarters at Noloroi Primary School	To provide safe shelter Noloroi Primary school teachers	Ksh 3,200,000
	Constructed a classroom at Lengwenyi Primary School	To enhance access to education	
	Fenced the compound of Kipsing Primary School	To ensure safety of Kipsing Primary students and teachers	
 NAKUPRAT-GOTLU WILDLIFE CONSERVANCY	Disbursed bursaries to 75 secondary school, college and university students	To enhance access to education	Ksh 1,000,000
	Constructed a new madrasa class in Gotu	To promote education and enhance safety for children and teachers	Ksh 16,892,764
	Constructed an administration block at Gotu Primary School		
	Fenced Gotu Primary School's compound and installed a gate, enhancing safety within the school		
	The construction of a school kitchen and dining hall in Ngare Mara Primary School is ongoing		
	Constructed two ECDE classrooms at Nakuprat Nursery School		
 LEPARUA COMMUNITY CONSERVANCY	Renovated existing boreholes and equipped them with water tanks	To enhance access to safe and clean drinking water	Ksh 13,650,000
	Disbursed bursaries to secondary school, college and university students	To promote education	Ksh 2,500,000
	Conducted entrepreneurship trainings for women and youth	To empower women and youth	Ksh 700,000
	Constructed gabion walls on conservancy roads to ease transportation	To ease transportation	Ksh 1,200,000
	Provided dairy goats to the vulnerable (including the elderly) so they could restock their herds	To enable community members to restock their herds which were decimated by the drought, robbing them of their source of livelihood	Ksh 650,000

# 2022 Projects in Laikipia County

## Conservancy Project Purpose Cost

Project	Purpose	Cost
Resurfaced the airstrip and roads within the Conservancy	To ease transportation	Ksh 2,256,000
Renovated Tassia Lodge	To increase income streams for Lekurruki Conservancy	Ksh 5,500,000
Drilled a borehole at Tassia Lodge to supply water to the Lodge and the community	To enhance access to safe and clean drinking water	Ksh 8,000,000
Constructed nurse quarters	Enhance access to services	Ksh 3,450,547
Disbursed bursaries	To promote education	Ksh 1,500,000

Constructed outposts for conservancy scouts, improving patrols, and issued uniforms to 10 scouts	To enhance security in the area	Ksh 1,200,000
Disbursed bursaries to 500 secondary school, college and university students	To promote education	Ksh 3,000,000
Fully repaired the Morupusi windmill which had been faulty for a decade	To enhance access to safe and clean drinking water	Ksh 2,700,000
Converted a broken handpump at Olampaa to a borehole and equipped it with a solar power system		
Installed a solar power system at Twala Cultural Manyatta		

Constructed the first banda at the newly established Tiamamut Lodge	To increase income streams for the community	Ksh 5,325,000
Constructed a banda at Koija Starbeds		
Built an ECDE Center at Il-Motioik	To enhance access to education	Ksh 1,400,000
Distributed bursaries to 289 secondary school, college and university students	To promote education	Ksh 300,000

Equipped a borehole in Kijabe with pipes, supplying water to Naboloo Primary School and the community	To provide water for livestock, wildlife, and domestic use to the Naboloo community	Ksh 4,900,000
Constructed a concrete tank and repaired another at the Nkiloriti rock water catchment area		
Drilled a borehole at Musul. Equipping of the borehole is ongoing		
Disbursed bursaries to 200 secondary school, college and university students	To promote access to education	Ksh 2,000,000

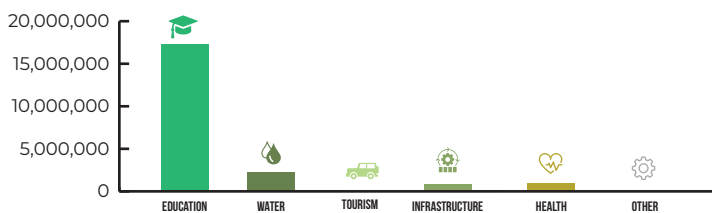

**Il Ngwesi**  
People of Wildlife

Purchased and distributed water tanks to community members in Ethi	To ensure continued water supply to the residents of Ethi, Nadungoro, Ntarian and Ngare Ndare	Ksh 2,984,750
Rehabilitated a borehole in Nadungoro and equipped it with water tanks		
Supplied water to the community through the Ntarian Water Project		
Purchased water pipes for use in the Ngare Ndare Water Project		
Distributed bursaries to 653 secondary school, college and university students	To promote education	Ksh 9,122,000
Health projects		Ksh 3,000,000
Land registration/purchase		Ksh 5,600,000

## 2022 Projects in Marsabit County

### Conservancy Project

### Purpose

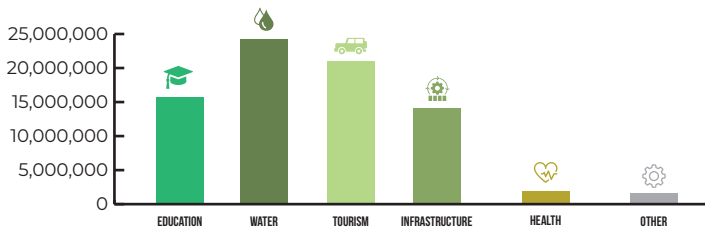

### Cost

MELAKO COMMUNITY CONSERVANCY

Installed a solar power system at Merrile Mixed Day School	To improve water access in the settlement of Manyatta Silapani	Ksh 400,000
Disbursed bursaries to 1,505 needy students	To promote access to education	Ksh 16,900,000
Constructed a toilet at Nairibi Dispensary	To promote access to health services including maternity services maternity	Ksh 1,100,000
Equipped the borehole at Silapani with water pipes	To provide clean and uninterrupted water supply to the residents of Silapani	Ksh 2,300,000
In Sakardala, a water purifier machine was purchased to purify salty water	To enhance access to clean drinking water for Sakardala community	

# 2022 Projects in Samburu County

## Conservancy Project

## Purpose

## Cost

Ongoing construction of Girgir Business Complex

This flagship project will ensure the Conservancy's financial sustainability, by generating rental income

Ksh 17,000,000

Constructed Naandadapo Early Childhood Education (ECDE) Center

To promote access to education in Kalama

Ksh 1,000,000

Constructed outposts at Lorubae A and B

To enhance safety within the conservancy

Ksh 2,753,004

Disbursed bursaries to 560 secondary school, college and university students

To enhance access to education

Ksh 4,000,000

Water projects

Ensure continued water supply

Ksh 2,500,000

Tourism projects

Increase conservancy income

Ksh 4,000,000

Security outposts construction

To enhance safety

Ksh 10,200,000

Purchased a mixed printer for Sereolipi Primary School

Purchased 2 jikos (charcoal burners) and sufurias (cooking pans) for Sereolipi Primary School

Fenced Sereolipi Primary School's compound

To promote access to education

Ksh 1,363,038

Disbursed bursaries to 660 secondary school, college and university students

Ksh 5,800,000

Equipped Sereolipi Health Centre with medicine, giving the community access to free medication

To Promote access to health services and free access to medication

Ksh 1,467,310

Equipped an existing solar power system at Sereolipi Health Centre with batteries

Rehabilitated the new pipeline system to the main storage tank in Archers Post and equipped it with water pipes

Drilled a borehole at Sereolipi. The equipping of the borehole is ongoing

To ensure continued water supply to the communities

Ksh 11,270,660

Land registration/purchase

Ksh 800,000

Renovated Nasunyai Dispensary and constructed a toilet within the facility	To enhance access to health facilities	Ksh 2,175,000
Installed a solar power system at Ngutuk Ongiron Dispensary	To improve access to health services at night and proper storage of medicine	
Installed a solar power system at Lpus Leluai Dispensary		Ksh 2,400,000
Renovated an ECDE class in Narapai Primary School		
Constructed a new classroom at Kiltamany Primary School	To promote access to education	
Constructed a new Early Childhood Education (ECDE) classroom at Lpus Leluai Primary School		Ksh 1,200,000
Disbursed bursaries to 258 secondary school, college and university students		
Water projects	Ensure continued water supply	Ksh 10,500,000

## NKRCP Response to Drought - 2022

---

**A devastating drought triggered an acute level of food insecurity in many parts of the country in 2022.**

Northern Kenya, home to pastoralists, was particularly hard hit as the drought decimated indigenous communities' livestock herds, robbing them of their livelihood and primary source of high-quality protein. Severe malnutrition had been observed throughout the region, with children aged one to five most affected alongside pregnant and lactating mothers. Malnutrition had weakened their immune systems, increasing their vulnerability to disease.

Many school-age children had dropped out due to financial constraints, while others developed nutritional deficiency diseases.

In response to the developing humanitarian crisis and the need for immediate intervention, the Northern Kenya Rangelands Carbon Project (NKRCP) Chairpersons of the participating conservancies collectively agreed to 'pre-release' 2023 funding from the Carbon Community Fund allocations to conservancies that wanted to direct some of those funds to provide food relief to their communities.

The CCF has to date distributed Ksh 23,393,039 (USD 198,246) designated for drought mitigation to five community conservancies: Melako, Naibunga Upper, Naibunga Central, Kalama, and Biliqo Bulesa, benefitting 14,330 households.

## County Government Levy

---

Project revenue generated by the NKRCP also contributed to payments made to County Governments in the form of a voluntary levy, agreed on by participating conservancies and their communities to support County Government engagement with project activities. In 2022, participating conservancies agreed these monies be allocated to emergency drought relief interventions to benefit communities county wide. Therefore, in November 2022, Ksh 23,848,500 (USD 202,105) was paid to the Isiolo, Samburu and Laikipia County Governments and received by Governors H.E. Ibrahim Guyo (Isiolo), H.E. Lati Leleliit (Samburu), and H.E. Joshua Irungu (Laikipia) respectively. The payment to Marsabit County Government, Ksh 1,834,500, was made in early 2023.

Marsabit Governor H.E Mohamud Ali, handing over the Voluntary County Levy to the CECM Water and Environment for boreholes rehabilitation support, the launch coinciding with height of the 2 year drought.

Voluntary County Levy handover to Samburu County Government.
